Auto Liability for Non Resident (MX) Private and Commercial Vehicles

In the United States it is mandatory that every vehicle carry liability insurance, or some other type of financial responsibility, to cover damages to third party (bodily injury and property damage) while traveling on any streets or highways.

Failure to comply with this regulation could lead to monetary fines and detainment of the vehicle. This rule is applicable to all vehicles regardless of nationality or place of permanent residence.

In partnership with Commercial Alliance Insurance Company we are offering an insurance product to serve the needs of all Private Passenger and Commercial Non-resident (Mexico registered) vehicles crossing into the United States in a temporary basis, providing the necessary protection to comply with the laws of this country.

This program provides the following coverages in the United States:

- Liability to cover third party damages caused by collision and rollover of the insured vehicle.
- Medical expenses coverage for occupants of insured vehicles (the highest in the market)*
- Optional and additional coverages.*

We offer different limits of coverage to provide the customer with the best one that suits their needs or interests.

SAFE promotes only the best international protection available to you.

For further information, please contact us in our corporate office in Houston, TX.
